Outsourcing: for Beginners - Outsourcing 101 - How to ...

A simple strategy for outsourcing is to create a list of the positions, and associated tasks for each position, and then determine where you currently have holes in your processes or systems, or where there are places that can be run more effectively, or efficiently. Those areas are generally the first and most ideal candidates for outsourcing.

Outsourcing has become a "charged" word. It is an important concept to understand because of its business applications (both for corporations and for small businesses) and because of its political implications. For these reasons, The Outsourcing Times has announced the launch of a special report, "Outsourcing 101 – Offshoring for Beginners".
