Core Concepts in Pharmacology: 9780134514161: Medicine ...

It is a widely accepted notion among students that studying pharmacology is the most boring and terrifying subject that one comes across in a medical school in the Caribbean. Students are supposed to know about each drug, mechanism of action, indication, routes of administration, elimination, excretion, contraindications, drug interactions and a lot more.

6 Ways to Make Studying Pharmacology Less Intimidating

Abstract: Although concept-based curricula are frequently discussed in the nursing education literature, little information exists to guide the development of a concept-based pharmacology course. Traditionally, nursing pharmacology courses are taught with an emphasis on drug class where a prototype drug serves as an exemplar.
