Loaded with assessment templates and sample units, the Physical Education Assessment Toolkit provides you with everything you need in order to simultaneously assess and teach students the lifelong value of physical education. Assessment templates form the basis of the Physical Education Assessment Toolkit. Presented in a concise, user-friendly format, this comprehensive package contains the following features: -Bound-in CD-ROM--PDFs of each reproducible are provided for duplication, including posters that can be printed on letter-sized or larger paper in color or in black and white. -Reproducible templates--Generic forms may be completed easily to address the specific topic, concept, or skill at hand, allowing you to tailor assessments to your students' needs and abilities. -Sample units--Designed using the backward design model of curriculum development, three complete units show how to transform blank reproducibles into highly practical assessment tools. Each chapter includes lesson plans with model reproducibles for the following categories: written assessment, self-assessment, peer assessment, and application or performance assessment. Within each of these categories, you'll receive guidance on implementing and creating more meaningful assessments. Templates may be used to meet a variety of student learning styles, providing opportunities for assessing through rubrics, journal-writing assignments, self-assessments, and skill-tracking assessments across the cognitive, affective, and psychomotor realms. Rather than stealing valuable classroom time, the template approach actually enables teachers to use assessment to reinforce and extend learning in a systematic way. The Physical Education Assessment Toolkit is the one resource that physical educators will turn to anytime they need to do an assessment, no matter what unit or lesson is being taught.
