Physical Geography Laboratory Manual

For lab courses in physical geography and atmospheric sciences. Applied Lab Investigations to Improve Your Understanding of Earth's Physical Geography. Physical Geography Laboratory Manual for McKnight's Physical Geography: A Landscape Appreciation provides a comprehensive set of lab exercises to accompany any physical geography curriculum. Lab exercises vary in length and required skill set, creating a flexible learning environment for you.

Continuing Tom L. McKnight's well-known thematic focus on landscape appreciation, Darrel Hess offers a broad survey of all of the physical processes and spatial patterns that create Earth's physical landscape. McKnight's Physical Geography: A Landscape Appreciation provides a clear writing style, superior art program, and abundant pedagogy to appeal to a wide variety of students. This new edition offers a truly meaningful integration of visualization, technology, the latest applied science, and new pedagogy, providing essential tools and opportunities to teach and engage students in these processes and patterns.

PLEASE PROVIDE COURSE INFORMATIONIdeal for use with any text on Physical Geography, this laboratory manual contains step-by-step exercises that help students apply essential geographic principles, methods, and tools to better understand Earth and its systems. Organization of each lab exercise chapter entails an introduction, key terms and concepts listing, objectives of the chapter, and a listing of materials and sources needed to complete the exercises. The initial laboratory exercise is called the Prologue Lab and is unique to this manual. The assignments in the Prologue are meant to span the entire term and will provide students with the tools of spatial analysis that are at the core of geography.

Physical Geography Laboratory Manual for McKnight's Physical Geography: A Landscape Appreciation, Eleventh Edition offers a comprehensive set of lab exercises to accompany any physical geography class. The manual is organized to meet your needs, providing the flexibility to pick and choose a series of short lab exercises each week. Lab exercises incorporate Google Earth(tm) explorations and provide review of concepts such as Doppler Radar and Continental Glaciation, while more than 40 QR codes now link you to a variety of media resources including Google Earth videos, color topographic maps and images and satellite movie loops. Also new to this edition is a lab on soils, and a field GIS lab exercise. High quality color stereoscope images and aerial photographs are now included in lab manual to give you an integrated picture of locations and landforms.

The lessons contained in the Lab Manual are designed to build and heighten understanding of the text chapters. Students can use these lessons to see how textbook content can be applied to the everyday problems in the world around them. Lab Manual lessons help build valuable skills such as map reading, map and graph interpretation, three-dimensional thinking, problem solving, and predictive modeling.
