orangutan? A boat? His front door? Yes, yes, and yes. And that's only the beginning. Stuck is Oliver Jeffers' most absurdly funny story since *The Incredible Book-Eating Boy*. Childlike in concept and vibrantly illustrated as only Oliver Jeffers could, here is a picture book worth rescuing from any tree.

What does an elephant do? It stomps its foot. Can you? From the creator of such beloved classics as *The Grouchy Ladybug* and *The Mixed-Up Chameleon* comes this interactive story that invites kids to imitate animal movements. Watching giraffes bend their necks or monkeys wave their arms is fun, but nothing could be better than joining in. From their heads down to their toes, kids will be wriggling, jiggling, and giggling as they try to keep up with these animals! Alligators wiggle, elephants stop, gorillas thump, and giraffes bend. Can you do it? ' I can do it! ' is the confidence-building message of this fun-filled interactive picture book. A variety of familiar animals invite young children to copy their antics, and as they play, they will learn such important skills as careful listening, focusing attention, and following instructions. Just as alphabet books introduce the very young child to letters and simple words, *From Head to Toe* introduces the basic body parts and simple body movements. And in the same way that children progress from understanding simple words to reading and writing sentences and stories, so they will progress from simple body movements to dancing, gymnastics, and other sports and activities, with confidence and pleasure. Eric Carle's colorful collages have delighted children for more than a generation. Each book provides hours of fun while encouraging them to

journey from learning the reasons behind developing a professional portfolio clear through completion of a final product. The authors present the topic to readers via a successful step-by-step process of developing, self-evaluating, and presenting a professional early childhood education portfolio. Each chapter has a definitive goal and will guide the reader that much closer to the end goal – that of a portfolio ready to present in interviews and utilize in the working classroom. Although the premise of the text is based on the platform the authors have implemented to support their own student interns going through the portfolio process at Towson University, this manual has a widely universal appeal for all students in a wide-range of early childhood programs as they develop their professional portfolio from just the beginnings through the final presentation. The text is appropriate for programs for which the portfolios are started in the Introduction to Early Childhood course and compiled as students make their way through the programs; or when the portfolio process is introduced in a Curriculum course, for instance; and for the Student Teaching, Practicum, or Capstone course.
