Thomas Economic Problems Any society, regardless of its size, degree of development and political system, tries to solve their the basic economic problems of deciding how to satisfy the unlimited needs of its market through limited Resources. Below is the list of basic economic problems that must be in your mind as an entrepreneur.

List of Basic Economic Problems and their Solution

Hence, by Theorem 4.11, v is differentiable.

The Bellman equation for this problem is

$$v(k) = \max_y \{ v'(k) [pf(k) + q[y - (1-\delta)k] + v(y)] \}$$

Online Library Problem In Macroeconomic Theory Solutions To Exercise From

so the Euler equation (Inada conditions rule out corner solutions) is $q = \beta [u'(y) + (1+r)q]$ (5.1) where y is the value of y that satisfies this equation.

Macroeconomic Theory - SSCC

Economic theory assumes that agents behave in line with the interests of the principal. Theories do assume an agency problem but they believe that it can be sorted out. However, that is rarely the case. Consider the case of the largest and most wasteful expenditures in the world and you will find that the money is spent by the government.
