MS Access 2016 - Create a Macro Programando Microsoft Access Com Macros

A macro in Access is a tool that allows you to automate tasks and add functionality to your forms, reports, and controls. For example, if you add a command button to a form, you associate the button's OnClick event to a macro, and the macro contains the commands that you want the button to perform each time it is clicked.

Introduction to macros - Access - support.microsoft.com

Access Macros are built from a set of predefined actions, allowing you to automate common tasks, and add functionality to controls or objects. Macros can be standalone objects viewable from the Navigation pane, or embedded directly into a Form or Report.
