Blender
Community

Hello and

welcome to the

1st instalment

for our Blender

scripting

series. In the

scripting series

we focus on

learning how to

code using

python script in

File Type PDF

Python

Blender. This means a departure from the traditional methods of 3D modelling, sculpting, animation etc. All of the tools in Blender run using Python script in the background.

Python Scripting

Blender has a

very powerful

yet often

overlooked

feature. It

exhibits an

internal full

fledged Python

interpreter.

Page 37/44

File Type PDF

Python

This allows any user to add functionalities by writing a Python script. Python is an interpreted, interactive, object-oriented programming language.
