Phil Johnson-Laird's theory of mental models has proved to be an influential development in the cognitive sciences. This theory aims to provide a detailed account of both reasoning and inference on the one hand, and language on the other. It can therefore be regarded as a step toward the much-sought-after unified theory of cognition.; This book provides an overview of mental models research. Some of the contributors were collaborators or former graduate students of Johnson-Laird, and between them they cover the main strands of mental models theory. After an appreciation of Johnson-Laird, the book covers topics including language Processing, Reasoning, Inference, The Role Of Emotions, And The Impact Of mental illnesses on thought processes.

"As a law professor who teaches civil procedure and mediation, "Pursuing Settlement" reads like a history. Menkel-Meadow's uncanny accuracy in predicting the future, her prescient fears for where institutionalization of ADR might take us, and the remarkable continued relevance of her suggested reforms and accompanying experimentation combine to make an easy case for declaring her work foundational. She challenged us to consider "whether new forms of dispute resolution will transform the courts or whether, in a more likely scenario, the power of our adversarial system will co-opt and transform the innovations designed to redress some, if not all, of our legal ills." (p. 5) And she offered a qualified "no" to the query whether the growth and expansion of ADR within institutions has changed the consciousness of those who solve legal problems. What we now know With the benefit of 27 years of pursuing settlement in the shadow of litigation, what do we now know? Turns out, very little beyond what Menkel-Meadow presaged for us. Without question, I could now teach my entire procedure course using only case law decisions about disputed mediation issues (Coben, 2015). Exactly as Menkel-Meadow predicted, lawyers now routinely "use" mediation as the all-purpose excuse for all sorts of failures and omissions ranging from incomplete discovery and failing to designate trial experts to late-filed motions and untimely requests to amend pleadings (Cole et al., 2019, ch. 5). Lawyers (and clients) fail to realize the numerous ways mediation participation (or non-participation) influences litigation decisions quite distinct from the mediation itself. Courts have, among other things, treated the failure to participate in mediation as a factor in justifying the pre-judgment attachment of property in aid of security, awards of prejudgment interest, and denials of continuance requests. Mediation behavior also is commonly invoked to support or deny awards of attorney's fees. Moreover, "traps for the unwary" abound (Coben, 2013). Parties have been deemed to have waived objections to venue and personal jurisdiction based on mediation participation. Requesting time to mediate has been deemed evidence of the lack of imminent harm to justify granting of a temporary restraining order. Information exchanged in mediation has been relied upon to establish or negate the amount in controversy necessary to justify federal court diversity jurisdiction and removal. State court mediation efforts have been cited as a reason for federal courts to decline supplemental jurisdiction over state law claims. In my home state of Minnesota, a settlement reached in mediation is evaluated under the law of contracts except that a mediated settlement must include the parties' affirmation that they intend the agreement to be binding upon them for the agreement actually to become binding - an affirmation that most first-year law students learn very early in their studies is akin to the "wax seal" or "ribbons" triviality no longer necessary to create a binding contract"--

When lines are drawn how do you find courage in the face of hate, and what does it truly mean to take a stand?

Suffused with Russell Banks ' s trademark lyricism and reckless humor, the twelve stories in *A Permanent Member of the Family* examine the myriad ways we try—and sometimes fail—to connect with one another, as we seek a home in the world. In the title story, a father looks back on the legend of the cherished family dog whose divided loyalties mirrored the fragmenting of his marriage. " A Former Marine " asks, to chilling effect, if one can ever stop being a parent. And in the haunting, evocative " Veronica, " a mysterious woman searching for her daughter may not be who she claims she is. Moving between the stark beauty of winter in upstate New York and the seductive heat of Florida, Banks ' s acute and penetrating collection demonstrates the range and virtuosity of both his narrative prowess and his startlingly panoramic vision of modern American life.
