In this gripping, tightly plotted tale of espionage, Malko Linge investigates the suspicious death of a Russian oligarch in London. Boris Berezovsky is living in exile in London to avoid the wrath of Vladimir Putin. One morning, the unlucky oligarch is found dead in his bathroom, an apparent suicide. Their suspicions aroused, MI5 opens an investigation—but Prime Minister David Cameron orders the case closed. Alarmed at the renewal of Russian Cold War tricks and Moscow's increasingly close ties to London, the CIA dispatches Malko Linge to investigate Berezovsky's death and the British cover-up. With help from an alluring former CIA handler, Malko dives into the search for hard evidence of the Kremlin's involvement in the affair—putting himself directly in the crosshairs of the world's most efficient assassins.

THE MADMEN OF BENGHAZI, available for the first time in the U.S., is a gripping, racy, ripped-from-the-headlines espionage thriller set in volatile post-Qaddafi Libya. Gérard de Villiers (1929 – 2013) spent his five-decade career cultivating connections in the world of international intelligence, which allowed him to anticipate geopolitical events before they occurred—and to masterfully blend fiction with an insider's knowledge of international affairs. Published from 1964 until his death in 2013, his bestselling SAS series of 200 spy novels, starring Malko Linge, was long considered France's answer to Ian Fleming, with Malko as his James Bond. Its hero, Malko Linge, an Austrian aristocrat, spends his time freelancing for the CIA in order to support his playboy lifestyle. When terrorists try to shoot down a plane carrying Libyan prince Ibrahim al-Senussi, it is clear that someone wants him dead. But the CIA has its own plot for the prince: Now that Qaddafi has been overthrown, al-Senussi is their best bet to set up a constitutional monarchy and stem the Islamist tide in Libya. The CIA, which needs Malko as much as he needs them, sends the Austrian aristocrat to Cairo to learn more about al-Senussi's plans by seducing his companion, a ravishing British model. This mission is enormously appealing, but also proves enormously dangerous, as the same madman of God who is trying to kill al-Senussi also takes aim at Malko.

A valuable new edition of a standard reference The use of statistical methods for categorical data has increased dramatically, particularly for applications in the biomedical and social sciences. An *Introduction to Categorical Data Analysis, Third Edition* summarizes these methods and shows readers how to use them using software. Readers will find a unified generalized linear models approach that connects logistic regression and loglinear models for discrete data with normal regression for continuous data. Adding to the value in the new edition is:

- Illustrations of the use of R software to perform all the analyses in the book
- A new chapter on alternative methods for categorical data, including smoothing and regularization methods (such as the lasso), classification methods such as linear discriminant analysis and classification trees, and cluster analysis
- New sections in many chapters introducing the Bayesian approach for the methods of that chapter
- More than 70 analyses of data sets to illustrate application of the methods, and about 200 exercises, many containing other data sets
- An appendix showing how to use SAS, Stata, and SPSS, and an appendix with short solutions to most odd-numbered exercises

Written in an applied, nontechnical style, this book illustrates the methods using a wide variety of real data, including medical clinical trials, environmental questions, drug use by teenagers, horseshoe crab mating, basketball shooting, correlates of happiness, and much more. *Introduction to Categorical Data Analysis, Third Edition* is an invaluable tool for statisticians and biostatisticians as well as methodologists in the social and behavioral sciences, medicine and public health, marketing, education, and the biological and agricultural sciences.

A glamorous prep school girl goes missing after a love affair with a teacher in this "immensely satisfying" thriller from France's #1 bestselling novelist (Harlan Coben). Twenty-five years ago, on a campus paralyzed by a snowstorm, beautiful 19-year-old Vinca Rockwell ran away with her philosophy teacher after they began a secret affair. For Vinca, "love is everything or nothing." She is never seen again. The once inseparable Manon, Thomas and Maxime -- Vinca's best friends -- have not spoken since graduation. Twenty-five years earlier, under terrible circumstances, the three of them committed a murder and buried the body in the gymnasium wall, the same wall that is about to be demolished to make way for an ultramodern new building. Now, the three friends are about to meet again at their reunion. Will decades of lies unravel to reveal what really happened on that deadly winter night? Taut, suspenseful, and addictive, *The Reunion* will grip you until its haunting final page.
