Seagulls Over Sorrento, released as Crest of the Wave in the United States and Canada, is a 1954 British drama film made by the Boulting brothers based on the play of the same name by Hugh Hastings. The film stars Gene Kelly and was one of three made by Kelly in Europe over an 18-month period to make use of frozen MGM funds.

*Seagulls Over Sorrento - Wikipedia*

A crest is a point on a surface wave where the displacement of the medium is at a maximum. A trough is the opposite of a crest, so the minimum or lowest point in a cycle. When the crests and troughs of two sine waves of equal amplitude and frequency intersect or collide, while being in phase with each other, the result is called constructive interference and the magnitudes double (above and below the line).

*Crest and trough - Wikipedia*
