At a time when image meant everything and the stars were worth millions to the studios that owned them, Mannix and Strickling were the most important men at MGM. Through a complex web of contacts in every arena, from reporters and doctors to corrupt police and district attorneys, they covered up some of the most notorious crimes and scandals in Hollywood history, keeping stars out of jail and, more importantly, their names out of the papers. They handled problems as diverse as the murder of Paul Bern (husband of MGM's biggest star, Jean Harlow), the studio-directed drug addictions of Judy Garland, the murder of Ted Healy (creator of The Three Stooges) at the hands of Wallace Beery, and arranging for an unmarried Loretta Young to adopt her own child--a child fathered by a married Clark Gable. Through exhaustive research and interviews with contemporaries, this is the never-before-told story of Eddie Mannix and Howard Strickling. The dual biography describes how a mob-related New Jersey laborer and the quiet son of a grocer became the most powerful men at the biggest studio in the world.

The shocking, definitive account of the lawyers and media tycoons who enabled the rise of Donald Trump, featuring new revelations from a Pulitzer Prize-winning Wall Street Journal team
With his blunt-force fame and the myths he ' s propagated about himself, Donald Trump has always moved in a world of gossip barons, crooked lawyers, and porn stars. But when he became the Republican nominee for the presidency in 2016, all of these characters crawled out from the underbelly of Trump ' s stardom and stumbled onto the global stage with him. In The Fixers, Joe Palazzolo and Michael Rothfeld have produced a deeply reported and exquisitely drawn portrait of that world, full of secret phone calls, hidden texts, and desperate deals, unearthing the practice of " catch and kill " by which Trump surrogates paid hush money to cover up his affairs, and detailing Trump ' s historic relationship with his fixers—from his early, influential relationship with Roy Cohn to his reliance on Michael Cohen, National Enquirer publisher David Pecker, and former New York mayor Rudy Giuliani. It traces the arc of their interactions from the 1970s through the 2016 campaign and beyond. It is a distinctly American saga that navigates the worlds of reality TV, cash-for-trash tabloids, single-shingle law shops, celebrity bashes, high-end real estate, pornography, and politics. The characters and settings of this book are part of a vulgar circus that crisscrosses the country, from New York to L.A. to D.C. Terrifying, darkly comic, and compulsively readable, The Fixers is an epic political adventure in which greed, corruption, lust, and ambition collide, and that leads, ultimately, to the White House. Advance praise for The Fixers " Of the dozens of books chronicling Donald Trump ' s presidency, The Fixers is destined to sit atop the pile. It has everything you look for in a political page-turner: Colorful characters, intrigue, sex, corruption and—unlike much of the Trump canon—meticulous, factual reporting by two ace reporters. What a read!" —John Carreyrou, New York Times bestselling author of Bad Blood

In Hollywood history, no other lawyer has achieved the movie star – like fame and glamour that Greg Bautzer enjoyed. This revealing biography tells, for the first time, the amazing story of a self-made man who for 50 years used his irresistible charm and prodigious legal talent to dominate the courtrooms, boardrooms, and bedrooms of Hollywood. Columnists of the 1930s through 1950s dubbed him " Hollywood Bachelor Number One, " and for good reason. His long-term relationships and momentary conquests were a who ' s who of leading ladies. Through exclusive interviews with those who knew him best, the book uncovers the inner workings of not only Bautzer the high-powered Hollywood lawyer—whose clients included billionaire Howard Hughes—but Bautzer the man.

The Fame Formula is a highly entertaining study of the creators of the publicity industry, taking us from vaudeville and the movies to the age of television and the internet. Starting with Maynard Nottage and Harry Reichenbach, who applied their anarchic talents to dreaming up stunts at the turn of the twentieth century, Borkowski goes on to describe how, in the hands of Hollywood fixers Eddie Mannix and Howard Strickling, publicity agents Russell Birdwell, Warren Cowan, Henry Rogers and more, this freewheeling industry developed. These men hatched ostrich eggs to promote movies and hatched incredible stories to dress up the lives of stars, buried scandals and buried their lives in their work. And in so doing they laid the foundation of a billion dollar manipulation industry and the modern world's rampant celebrity culture. Borkowski also reveals how his research has led to the creation of a fame formula, an analysis of how long any celebrity can expect to stay famous - and how to avoid relegation to the Z list.

As the 100 Years War ground to its dismal end, England groaned under the misrule of Henry VI and his Lancastrian favorites. The House of York rose in rebellion; and Parliament restored York in the line of inheritance to the throne. Edward, Earl of March, triumphed at the Battle of Mortimer's Cross; Parliament asked him to be King and the people proclaimed him Edward IV. His life and legacy are chronicled in Edward IV, England's Forgotten Warrior King. For ten years, Edward struggled against repeated Lancastrian rebellions. He was driven from his kingdom by Richard, Earl of Warwick, but then he won decisive victories at the Battles of Barnet and Tewkesbury in 1471. For another twelve years, he reigned wisely with peace and prosperity, as a beloved King; but then he died at age forty one and his twelve-year-old son was proclaimed Edward V. Richard, Duke of Gloucester, seized the throne and put young Edward and his brother in the Tower of London, from where they never emerged alive. Richard III was a good King and wanted to be respected, but the people believed he had murdered the Princes in the Tower, and would not forgive him. Queen Elizabeth and Margaret Beaufort plotted with Henry Tudor, who invaded England in 1485. Henry Tudor then defeated and killed Richard III at the Battle of Bosworth Field. Henry Tudor (Henry VII) was crowned King and married Edward IV's daughter Elizabeth; the resultant Tudor dynasty would rule England for another 118 years.

History of Hollywood in the 1940's

Two successful movie and TV producers provide the reader with the tools needed to create, develop, and sell ideas to Hollywood. Producers Jonathan Koch ( " Beyond the Glory " ) and Robert Kosberg (Deep Blue Sea) are known as the " Kings of Pitch. " They currently have more than a dozen projects in development at major studios, including projects with Josh Lucas, Tobey Maguire, and Katherine Heigl.
