*The Key to Getting Responses in Online Dating ...*

Perhaps surprisingly, the key to the success of online dating lies in clever calculations. Dating sites rely on algorithms: sets of instructions which inform a machine what to do with certain information. Online dating sites ask users questions about their habits, beliefs and lifestyle choices and the computer runs the answers to find possible suitors.

It became clear that generally online dating success depends on two key fundamentals - physical attraction (usually through a profile photo) and shared values (usually through a series of questions). And like many things in life it seems the effort you put in is directly proportional to the result you get out.
