The centuries-long history of the Louvre, from humble fortress to Royal palace to the world's greatest art museum—with photos and building maps. Some ten million people from all over the world flock to the Louvre each year to enjoy its incomparable art collection. Yet few of them are aware of the remarkable history of the site and buildings themselves—a fascinating story that historian James Gardner elegantly chronicles in this authoritative history. More than seven thousand years ago, men and women camped on a spot called le Louvre for reasons unknown. Centuries later, King Philippe Auguste of France constructed a fortress there, just outside the walls of a nascent Paris. Intended to protect the capital against English soldiers stationed in Normandy, the fortress became a royal residence under Charles V two centuries later, and then the monarchy's principal residence under the great Renaissance king François I. In 1682, when Louis XIV moved his court to Versailles, the Louvre languished until the French Revolution when, during the Reign of Terror in 1793, it first opened its doors to display the nation's treasures. Ever since—through the Napoleonic era, the Commune, two World Wars, to the present—the Louvre has been a witness to French history, and expanded to become home to a legendary art collection that includes the *Mona Lisa* and *Venus de Milo*. Includes sixteen pages of full-color photos illustrating the history of the Louvre, a full-color map detailing its evolution from fortress to museum, and black-and-white images throughout the narrative.

Superstar comic artist Enki Bilal reimagines the Louvre as a ghostly place in this series of 22 portraits. The Mona Lisa, the Winged Victory of Samothrace, a reclining Christ, an Egyptian bust—these and other works of art are seen through the eyes of their own particular phantom. The motley collection of men, women, and children presented in these vignettes— a Roman legionary, a muse, a painter, and a German officer, among others—have little in common other than their often violent demises and an eternity spent haunting the iconic Parisian museum. Bilal recounts the life stories of these lost souls in dramatic biographies that combine fiction and historical reality, often evoking the creation of the works in question. The paintings that compose this graphic novel were presented in a special exhibition at the Louvre in early 2013.

When the fever breaks somewhat, he sets out on his visit and promptly gets lost in the crowded halls of the Louvre. Very soon, he discovers many unsuspected facets to this world in a museum in a journey oscillating between feverish hallucination and reality, actually able to speak with famous painters from various periods of history, led to crossroads between human and personal history by... the Guardians of the Louvre. This is book a manga presented in the original direction of reading, meaning the book is meant to be read right to left. Flip pages to the left while reading.
