[The Best Boat Trailer Guides - YouTube](#)
The guide boards start even with the front of the bunk boards. The brackets are spaced 9' apart and the guide boards overhang on both ends about 6". The top of the guides are about one foot above the bunks and are 19" tall from the trailer frame to the top of the bracket. The top of the guide board is about 1" above the top of the bracket.

Boat Trailer Outlet makes every effort to properly fit our trailers to your boat. We guarantee the trailer you purchase will be a proper fit based on you following our guidelines for loading and setup. Trailers will require some adjustments in most cases. This is easily accomplished with hand tools at a boat ramp.

[Boat Trailer Outlet - Boat Trailers for Sale Online](#)
Many MAKO boat and trailer packages are available with optional or standard brakes. State towing regulations regarding gross vehicle weight vary from state to state as to requirements for brakes on boat trailers. Please check state regulations to determine whether your state requires brakes.
