handwriting. What's inside? Part 1 starts off with the alphabet where writing letters in both capital and lowercase forms are practiced through tracing and connecting the dots. Each letter is presented with directional arrows to guide the hand movements of the child as he or she learns to write. We've also added the numbers 1-10 to the first chapter and pictures to color. Part 2 consists of sight words to be traced and copied. Part 3 moves on to practicing sight word sentences and phrases. This book contains over 120 pages of exercises! It's a great handwriting workbook choice for all parents and teachers who hope to begin teaching writing to beginners and engage their kids in stimulating handwriting practice. Revisit the lost art of writing with these fun prompts, worksheets, exercises—and more!—and experience the many benefits of writing by hand, including increased focus and memory, relaxation, and creative expression. Writing by hand may seem passé in the digital age, but it shouldn't be dismissed as simply an activity for grade schoolers—it offers countless benefits that have been studied by researchers, brain neurologists, therapists, educators, and others who are invested in helping handwriting thrive in an age of advancing technology. Handwriting may be slower than typing—but this gives your brain more time to process information, and stimulates neurological connections that aid in memory, focus, and composition. The process of handwriting can also
