This collection of essays illuminates the experiences of pre-20th-century Latin American women...There is surprisingly rich information about Indian and black women...The diverse patterns of family roles and sex polarizations, trends in the feminist movement, and women's political participation are themes of significant importance in the essays. A welcome contribution to women's studies and to Latin American history, especially since there is little available in English covering this.

Look at the Birdie is a collection of fourteen previously unpublished short stories from one of the most original writers in all of American fiction. In this series of perfectly rendered vignettes, written just as he was starting to find his comic voice, Kurt Vonnegut paints a warm, wise, and often funny portrait of life in post-World War II America—a world where squabbling couples, high school geniuses, misfit office workers, and small-town lotharios struggle to adapt to changing technology, moral ambiguity, and unprecedented affluence. In “Confido,” a laboratory assistant’s magical invention promises to put his family on easy street at last. But is a machine that gives voice to our innermost thoughts and unspoken grievances really the key to happiness—or a direct line to despair? “Confido” and the thirteen other never-before-published pieces that comprise Look at the Birdie serve as an unexpected gift for devoted readers who thought that Kurt Vonnegut’s unique voice had been stilled forever—and provide a terrific introduction to his short fiction for anyone who has yet to experience his genius.

The most ghost-filled mansion on Coney Island has been demolished—and unfortunately, every one of its spirits has decided that Harley's hacienda is the hot new hangout to haunt! It sure is convenient, then, that Zatanna is currently booked at Big Tony's cabaret show! It's up to Harley and Zatanna to convince all of those ghosts to move on to the next world but if you think Harley's got problems now, just wait until you see the ectoplasmic baggage these specters are packing!

Michael: Being the token gay kid in the school was never gonna be an easy ride, I mistakenly thought my best friend Jared would be there for me through thick and thin. I never expected him to become the high school bully that made me hate who I am. One thing's for sure, Jared Collins had my heart, before he broke it in two, I'll never make that mistake again Jared: I can't get him out of my head. Michael Irwin was a temptation that I could not let myself give into. When you're parents are leaders of the church, being openly gay is never going to happen. Once high school is over and I'm out on my own, all bets are off. Michael Irwin is may not realise it yet, but he's mine.

What do you do when your boyfriend dumps you and you’re nursing a broken heart? For Trisha Bernard, the answer’s clear: escape to India, armed with a copy of the Kama Sutra. That way you’ll be ready should love (or lust) strike. But, as Bernard explains in her uproarious account of that madcap adventure, not everything goes quite as planned. At the last minute, she’s joined by her long-lost friend Sally—an eccentric shopaholic who travels with a jam-packed monster suitcase. Then, there’s India itself, where the two women end up almost marooned in the Thar Desert, practically camel-napped in Rajasthan, and attacked by an amorous monkey in Delhi. And that’s just the beginning... With her ardor for architecture and history, and her Kama Sutra to inspire passion, Trisha Bernard leads us on a wacky, witty, and wonderful romp through one of the world’s most fascinating cultures.

This full-color illustrated textbook offers the first comprehensive introduction to all major aspects of tropical ecology. It explains why the world's tropical rain forests are so universally rich in species, what factors may contribute to high species richness, how nutrient cycles affect rain forest ecology, and how ecologists investigate the complex interrelationships among flora and fauna. It covers tropical montane ecology, riverine ecosystems, savanna, dry forest--and more. Tropical Ecology begins with a historical overview followed by a sweeping discussion of biogeography and evolution, and then introduces students to the unique and complex structure of tropical rain forests. Other topics include the processes that influence everything from species richness to rates of photosynthesis; how global climate change may affect rain forest characteristics and function; how fragmentation of ecosystems affects species richness and ecological processes; human ecology in the tropics; biodiversity; and conservation of tropical ecosystems and species. Drawing on real-world examples taken from actual research, Tropical Ecology is the best textbook on the subject for advanced undergraduates and graduate students. Offers the first comprehensive introduction to tropical ecology Describes all the major kinds of tropical terrestrial ecosystems Explains species diversity, evolutionary processes, and coevolutionary interactions Features numerous color illustrations and examples from actual research Covers global warming, deforestation, reforestation, fragmentation, and conservation The essential textbook for advanced undergraduates and graduate students Suitable for courses with a field component Leading universities that have adopted this book include: Biola University Bucknell University California State University, Fullerton Colorado State University - Fort Collins Francis Marion University Michigan State University Middlebury College Northern Kentucky University Ohio Wesleyan University St. Mary's College of Maryland Syracuse University Tulane University University of California, Santa Cruz University of Central Florida University of Cincinnati University of Florida University of Missouri University of New Mexico University of North Carolina at Chapel Hill University of the West Indies
