The latest edition of the top-selling handguns annual presents new reports on handguns for field and personal protection use. The comprehensive catalog section is fully updated, expanded, and well illustrated, displaying today's commercially available handguns. New feature articles provide the latest on trends, gun tests, self-defense, and handgun hunting. The catalog section covers currently manufactured semi-custom handguns and commercial centerfire, rimfire, and blackpowder pistols, as well as airguns. Plus an accessories section covers handgun grips, sights, scopes, metallic reloading presses, and spotting scopes. An essential reference section gives enthusiasts the NRA Compendium of Firearms Laws, the NRA Right-to-Carry Reciprocity Guide, a directory of the handgunning trade, and listings of arms associations, periodicals, and books. - Extensively updated handgun catalog section - Expanded semi-custom handguns and handgun grips coverage - Latest trends, gun tests, self-defense, and handgun hunting

Detailed entries on more than 270 spring-air, pneumatic, and gas-powered guns contain complete description and technical information  
Puste-, suge-, tryk og vacuum-våben m.m.(luftbæsser) fra de ældste tider til det 19 århundrede incl. deres konstruktion, virkemåde og benyttelse i krig og fred. - Tillige lidt om våbenkonstruktørerne.

This revised 5th Edition, now expanded to over 400 pages in a larger 8 x 11 in. format, contains over twice as much information as previous editions. Featured in this 5th Edition are hundreds of digital images for most popular makes and models, making identification much easier. The Blue Book of Airguns contains both up-to-date 2005 airguns pricing information and detailed technical data on both todays high tech offerings and older, discontinued models. This includes domestic, foreign, and military airguns, modern commemoratives, and major trademark antiques! Also included are some valuable editorials by Dr. Robert Beeman and noted airgun journalist Tom Gaylord, as well as an extensive pictorial glossary. The 5th Edition Blue Book of Airguns contains more useful and up-to-date information than any other single airgun publication.

Complete Factory Handbook for the BSA Model B20 500 c.c.

Excerpt from A Manual of Zoology The favor with which the first and second American editions of Hertwig's Zoology have been received has led to a thorough revision of the whole with a close comparison with the latest German edition. In this there have been introduced many new features bringing the work up to date. These include a discussion of Mendelian inheritance, many modifications in the account of the theory of evolution, and a considerable enlargement of the Protozoa and especially of the pathogenic forms, making the volume of more value to the student of medicine. To have included these without changes elsewhere would have resulted in a much larger volume. But the demand in American colleges has been for a smaller work and so a reduction has been made in two ways. There has been a condensation by the elimination of unnecessary words and phrases and by the omission of considerable matter of minor importance. Then there has been the recognition of the fact that the book has two uses, one in the class room the other as a reference work. The two classes of matter have been distinguished by difference of type. No attempt has been made to bring the systematic names into accord with the latest vagaries of the systematists. No useful and could be served by changing or transferring the well-known names of Echinia, Coluber, Amia, Homarus, Unio, Holothuria, Am ba, etc., while the confusion this would introduce would be enormous. It should be understood that while the revision is based upon the German edition of Professor Hertwig, he should not be held responsible for any changes introduced. The whole responsibility for these rests upon the American reviser.
