Tolkien's legendarium is the body of J. R. R. Tolkien's mythopoetic writing that forms the background to his The Lord of the Rings, a high fantasy novel which is widely considered to be his magnum opus. Tolkien began to develop his legendarium in poems, paintings and nomenclature by 1914, and composed the earliest drafts of its stories by 1916. He continued to work and re-work its components throughout his adult life, a period of more than 50 years. The "canonical" or mature form of Tolkien's nar

Tolkien explores the formative years of the orphaned author as he finds friendship, love and artistic inspiration among a group of fellow outcasts at school. This takes him into the outbreak of World War I, which threatens to tear the "fellowship" apart. All of these experiences would inspire Tolkien to write his famous Middle-Earth novels.

An introduction to the life and career of the "Father of High Fantasy."

The original authorised biography, and the only one written by an author who actually met J.R.R. Tolkien.

After discovering the true nature of the One Ring, Bilbo Baggins entrusts it to the care of his young cousin, Frodo, who is charged with bringing about its destruction and thus foiting the plans of the Dark Lord.

Perfect for Tolkien enthusiasts of all shapes and sizes, this delightful and accessible biography brings the enigma behind The Lord of the Rings franchise to life Long before the successful The Lord of the Rings films, J.R.R. Tolkien’s creations, imagination, and characters had already captured the hearts and minds of millions of readers. But who was the man who dreamt up the intricate languages and perfectly crafted world of Middle-earth? Tolkien had a difficult life for many years— orphaned and poor, his guardian forbade him from communicating with the woman he had fallen in love with, and he also suffered through the horrors of World War I. An intensely private and brilliant scholar, he spent more than 50 years working on the languages, history, peoples, and geography of Middle-earth, with a consistent mythology and body of legends inspired by a formidable knowledge of early northern European history and culture. J.R.R. Tolkien became a legend by creating an imaginary world that has enthralled and delighted generations.

The Real JRR Tolkien: The Man Who Created Middle Earth is a comprehensive biography of the linguist and writer; taking the reader from his formative years of home-schooling, through the spires of Oxford, to his romance with his wife-to-be on the brink of war, and onwards into his phenomenal academic success and his creation of the seminal high fantasy world of Middle Earth. The Real JRR Tolkien delves into his influences, places, friendships, triumphs and tragedies, with particular emphasis on how his remarkable life and loves forged the worlds of The Hobbit and The Lord of the Rings. Using contemporary sources and comprehensive research, The Real JRR Tolkien offers a unique insight into the life and times of one of Britain's greatest authors, from cradle to grave to legacy.

Probably the most famous children’s book of modern times -- regularly topping polls for “favourite book” and now available in a Large Type format to complement The Lord of The Rings Large Type trilogy. Bilbo Baggins enjoys a quiet and contented life, with no desire to travel far from the comforts of home; then one day the wizard Gandalf and a band of dwarves arrive unexpectedly and enlist his services -- as a burglar -- on a dangerous expedition to raid the treasure-hoard of Smaug the dragon. Bilbo’s life is never to be the same again. The Hobbit became an instant success when it was first published in 1937, and more than 60 years later Tolkien’s epic tale of elves, dwarves, trolls, goblins, myth, magic and adventure, with its reluctant hero Bilbo Baggins, has lost none of its appeal.

An expertly written investigation of the places that shaped the work of one of the world’s best loved authors, exploring the relationship between worlds real and fantastical.

A captivating picture book biography of a boy who imagined a world full of dragons and grew up to be beloved author J. R. R. Tolkien. John Ronald loved dragons. He liked to imagine dragons when he was alone, and with his friends, and especially when life got hard or sad. After his mother died and he had to live with a cold-hearted aunt, he looked for dragons. He searched for them at his boarding school. And when he fought in a Great War, he felt as if terrible, destructive dragons were everywhere. But he never actually found one, until one day, when he was a grown man but still very much a boy at heart, when he decided to create one of his own. John Ronald’s Dragons, a picture book biography by Caroline McAlister and illustrated by Eliza Wheeler, introduces the beloved creator of Middle Earth and author of The Hobbit and The Lord of the Rings to a new generation of children who see magic in the world around them.

The definitive Tolkien companion—an indispensable guide to The Hobbit, The Lord of the Rings, and more, from the author of The Road to Middle-earth. This “highly erudite celebration and exploration of Tolkien’s works [is] enormous fun,” declared the Houston Chronicle, and Tom Shippey, a prominent medievalist and scholar of fantasy, “deepens your understanding” without “making you forget your initial, purely instinctive response to Middle-earth and hobbits.” In a clear and accessible style, Shippey offers a new approach to Tolkien, to fantasy, and to the importance of language in literature. He breaks down The Lord of the Rings as a linguistic feast for the senses and as a response to the human instinct for myth. Elsewhere, he examines The Hobbit’s counterintuitive relationship to the heroic world of Middle-earth; demonstrates the significance of The Silmarillion to Tolkien’s canon; and takes an illuminating look at lesser-known works in connection with Tolkien’s life. Furthermore, he ties all these strands together in a continuing tradition that traces its roots back through Grimms’ Fairy Tales to Beowulf. “Shippey’s commentary is the best so far in elucidating Tolkien’s lovely myth,” wrote Harper’s Magazine. J.R.R. Tolkien: Author of the Century is “a triumph” (Chicago Sun-Times) that not only gives readers a deeper understanding of Tolkien and his work, but also serves as an entertaining introduction to some of the most influential novels ever written.

The first ever publication of J.R.R. Tolkien's final writings on Middle-earth, covering a wide range of subjects and perfect for those who have read and enjoyed The Silmarillion, The Lord of the Rings, Unfinished Tales, and The History of Middle-earth, and want to learn more about Tolkien's magnificent world. It is well known that J.R.R. Tolkien published The Hobbit in 1937 and The Lord of the Rings in 1954-5. What may be less known is that he continued to write about Middle-earth in the decades that followed, right up until the years before his death in 1973. For him, Middle-earth was part of an entire world to be explored, and the writings in The Nature of Middle-earth reveal the journeys that he took as he sought to better understand his unique creation. From sweeping themes as profound as Elvish immortality and reincarnation, and the Powers of the Valar, to the more earth-bound subjects of the lands and beasts of Númenor, the geography of the Rivers and Beacon-hills of Gondor, and even who had beards! This new collection, which has been edited by Carl F. Hostetter, one of the world's leading Tolkien experts, is a veritable treasure-trove offering readers a chance to peer over Professor Tolkien's shoulder at the very moment of discovery: and on every page, Middle-earth is once again brought to extraordinary life.
