~~8 Reasons Why The Economy Of China Will Collapse — YouTube~~

In spite of the truce in the trade war following the interim deal that Trump struck with Xi in January 2020, U.S.-Chinese economic decoupling is almost certain to continue in the coming years regardless of who is in the White House, because reducing the United States' economic dependence on China and constraining the growth of China's power are now bipartisan aims.

~~China's Coming Upheaval | Foreign Affairs~~

In a new book, Will China's Economy Collapse? New York University Adjunct Professor Ann Lee addresses a key question that China watchers and economists have been asking for more than two decades. Between ballooning debt to GDP ratios, overinvestment in the property market, and industrial overcapacity, the uneven structure of China's economic growth provides plenty of reasons for concern.

A few years ago, the emerging consensus was that China's economy was on a trajectory to overtake the US. Today, that has largely changed and everyone from Peter Zeihan to Stratfor to Steve Bannon appears to believe (like an article of faith) that China's economy is on a trajectory of collapse, which will lead to China's implosion as a political entity.

~~When is China's Economy Supposed to Collapse? : geopolitics~~

File Type PDF Will Chinas Economy Collapse The Future Of Capitalism

Ann Lee is a former visiting professor at Peking University and a recognised authority on China's political economy and in this rose-tinted and slightly complacent essay, she argues that China is essentially a special economic case that will not collapse as western economists fear because structurally it has mechanisms in place to prevent it.

~~Will China's Economy Collapse? by Ann Lee — I Read ...~~

Collapse in economics usually means "no growth". With 25 years of predictions by some western experts of China's collapse any day now, obviously China will experience no growth at some point in the future, but when is the unknown at this point. As you see below the last time China had no growth was in 1976.

~~?Will China's Economy Collapse? on Apple Books~~

The U.S. economy's size makes it resilient. It is highly unlikely that even the most dire events would lead to a collapse. If the U.S. economy were to collapse, it would happen quickly, because the surprise factor is a one of the likely causes of a potential collapse. The signs of imminent failure are difficult for most people to see.
