Taureans, ever wondered what the Sun-signs tell you about love and life? This unique anthology of poems for love and life relates directly to your Sun-sign, Taurus. If you were born between the 21st of April and the 21st of May, you will relate to many of the themes identified with your sign's characteristics and personality traits. The poems in this collection have been chosen because they reflect a Taurean attitude to life. They appeal to the interests 'ruled' by your sign; the animals, flowers, trees, plants and places celebrated by the poets and associated with the sign of Taurus over three thousand years of traditional astrology. Some have been chosen simply because we believe you will enjoy them, and that they will awaken or re-awaken your love of poetry.

Civilizations and World Order: Geopolitics and Cultural Difference examines the role of civilizations in the context of the existing and possible world order(s) from a cross-cultural and inter-disciplinary perspective. Contributions seek to clarify the meaning of such complex and contested notions as “civilization,” “order,” and “world order”; they do so by taking into account political, economic, cultural, and philosophical dimensions of social life. The book deals with its main theme from three angles or vectors: first, the geopolitical or power-political context of civilizations; secondly, the different roles of civilizations or cultures against the backdrop of “post-coloniality” and “Orientalism”; and thirdly, the importance of ideological and regional differences as factors supporting or obstructing world order(s). All in all, the different contributions demonstrate the impact of competing civilizational trajectories on the functioning or malfunctioning of contemporary world order.
